great spec racer candidate (Denver CO)

Posted by 931Pilot - 20 Jun 2015 22:46

I have an 84 NA for sale.

It has had a decent amount of work done to it.

Manual steering rack

manual sunroof

AC delete

Engine/head has been rebuilt, with low miles since.

83 forged rods

88 pistons (higher compression)

shaved head

late tube headers

Fidanza Aluminum flywheel

944 turbo Oil cooler.

throttle cam.

Fresh Oil

Suspension:

Koni yellow sport front and rear, with m030 front springs (stiffest that was on NA with factory option, to stay "stock" legal)

944 turbo sway bars

m030 torsion bars (25.5mm) I think!

15x7 3 piece enkei wheels, On Khumo DOT slicks.

Perforamnce Friction track pads/Braided brake lines.

Really the only thing it needs is paint, its guards Red, and primer...

$2200

Possibly a set of cookie cutters for sale seperately

Located in near Denver CO
