Great pictures, Chuck. Lots of action all over the track. Thanks for posting them so fast. You have a second career when you want one.

A great weekend in So. Cal. The weather was great and Katie and I enjoyed seeing folks again and meeting new faces and appreciate the reception everyone gave us. And thanks to everyone that signed the wavier for injury and maiming from the Piper.

Everett, again, my apologizes for being responsible for you turning around on lap one turn three with my out-braking beginner mistake. I am glad there was no contact because of it and very sorry it affected your race so much.

We both look forward to seeing everyone again soon.

Big Dog and Lil'Kat
