

FS '84 944 Full Race Build

Posted by thehillards - 10 Jun 2013 14:19

I purchased this car 2 years ago and spent that time (and a little money) finishing the build out and campaigning it in NASA HPDE and now TT programs. The guys in the 944 class are fantastic, helpful, encouraging and just a lot of fun, so it is with a lot of reservation, I am contemplating teaming with a friend and moving to another class ... so I am offering it for sale.

Please let me know if you have any questions

Lots of Information and photos at www.eddiehillard.wordpress.com

The car was built in 2004 by Tony Heyer, a 25 + year Porsche mechanic and shop owner. Tony has built and raced many 944 race cars and as this was one of his last builds ... it incorporates all his career tricks. The car was purchased from the original owner.

The build included an engine rebuild and the following modifications:

Bolt in cage with added welds and door bars

Window net (New)

Right side center net (New)

Five point belts (5 years old)

Wink Mirror

Custom anti-roll bars and camber plates by Roger Krause Racing

Aligned and corner balanced by Roger Krause Racing

Koni adjustables front

Koni adjustables rear

Delrin Suspension bushings

Eibach front springs

Weltmeister torsion bars

Boxed front control arms

Brake Ducts

Brake bias valve

Electric Fan

Large Turbo Oil Cooler

3 quart Accusump

Polished Intake Manifold

Non-OEM ECU

Compression: #1 190 psi 10%, #2 185 psi 6%, #3 190 psi 3%, #4 190 psi 4%

Lightened and Slotted Flywheel

Limited Slip Differential (LSD)

MSDS Headers

Custom dash and gauge cluster with; Autometer tachometer, oil pressure light, water pressure light, coolant temperature gauge and oil temperature and pressure gauges

Quick release steering wheel

Kirkey road race seat (Driver-Med), Corbeau (Passenger - Med)

Odyssey 680 Battery – 15# Custom Mount

Remote Kill switch

Halon two nozzle fire suppression system

2400# Fuel Reserve Light / No Driver

Toyo RA1's – ½ life

4 Sets of Wheels (16) – Cookie Cutters

PCA/NCRC/ARC Log books

Custom Car Cover

Dual 3500# Axle electric brake – beavertail ramp trailer

\$9,500.00

Eddie Hillard – 760-809-4522

Dropping the price to \$9,000.00. Remember that also includes the new trailer (\$1,500) +/- which does not need to go with the car ... net \$7,500. I will be at Fontana driving with the 944 Spec group for the first time ... along with Ian trying to obtain our provisional license !

Stop by and see the car and meet the greatest group around !

Good morning. Please give me a call at your convenience about your car. I am on the east coast (NY) I can be reached up until ~ 10:30 PM almost any night.

I have some questions about the car bit it looks about what I am trying to find. I am hoping to get this car up and ready for the 14 season so I would rather get it sooner than later.

Thanks,

Chris
