

944 project cars for sale

Posted by inlanddyno - 03 Aug 2015 15:39

I have 3 944 cars in various states for sale. One is a 1983 with manual steering and a SCCA legal cage. This car is stripped out and ready to reassemble. The second is a 1995 stripped roller. The third is a 1994 complete car that runs but needs repairs to bring it back to life. All bodies are straight and complete. There are a set of cookie cutters, phone dials and Fuchs wheels that go with the package. There are altogether 4 engines. All the parts off the stripped cars are there, including new Koni shocks. The interior pieces of the stripped cars are ravaged and have been tossed. All this for \$1500. call Chris at (909)557-7060
