

86' 944 Turbo for sale in North Carolin

Posted by Vupinder11 - 13 May 2016 15:10

Hey guys,

Selling my 1986 Porsche 944 track car for \$13,499. Great car with full log book of maintenance. I'm located in North Carolina for those in the area.

Please reachout with any questions.

Car was maintained by Midwest Eurosport where it competed competitively in Illinois and Wisconsin for PCA sanctioned events. Engine was rebuilt and new turbo installed in 2007 then car sat for 3 years in storage. I purchased the car in 2012 and ran a couple track days, but the arrival of baby has changed the speed I should be carrying at the track so I will be downgrading. Fast car and is street legal if desired to drive it daily.

Summary of performance upgrades:

Full log of maintenance

Fiske performance racing wheels

Coil over shocks with camber plates

Racing Dynamics Performance Chip

Limited slip differential

Full roll cage

Lexan windshield

Recaro racing seats

Momo steering wheel

Shifting light

Fire extinguisher

Battery kill switch / cable

Brand new radiator and hoses

Sure i'm forgetting some things. Text or call for more info

Brian, just a quick correction; your car is a Turbo, plain Jane besides the mods you have put on it.

The Turbo S is only in the '88 '89 model years.

GLWS.
