

SOLD! #2 1988 924S Race car FS Rocky Mountain

Posted by Chris - 22 Sep 2009 06:41

Gauging interest in my #2 blue 924S race car. I dont have to sell the car but will let go for the right offer. No matter how you look at it the car is a GREAT deal for someone looking to join the class or even start in HPDE with the intent to race later. Car is located in the Rocky Mountain Region (denverish area) The car did race at the recent Nationals Event. Here's video of the car in action, proof that it is competitive.

videos.streetfire.net/video/2009-NASA-Nationals-944_707644.htm

if that video link doesnt work try this one

rm944.com/events/2009-09-10_12%20Miller%...20-%20Sat%20Race.wmv

That could be you!!!! What a blast!
