

WTB: Wiper Stalk

Posted by AgRacer - 13 Aug 2013 07:31

Does anybody have a wiper stalk left over from their build that maybe converted to a simple switch?

I am keeping the stock wiper control because I couldnt make up my mind as to what I wanted to do there on my re-wire job.

Assuming it is in good working order, I will take it. The one I had broke while I was moving around inside the car.

Paypal okay? PM me or post your paypal and Ill send payment tonight. No rush, however, as my car will not be going anywhere anytime soon.
