

Toyo to continue Toyo bucks payouts!

Posted by Sterling Doc - 20 Apr 2011 14:22

Guys, this is what we asked for, and NASA has been working on this with Toyo for a while. We got it done!

Not only are Toyo Bucks continuing, but they will pay out full Toyo bucks to the top placing finisher on Toyos. So if someone wins on another tire, the next guy on Toyos gets a full \$150, and so on down to the first 5 Toyo finishers.

I know there are still concerns about cashing them in. I will continue to work on that. Recent news is more encouraging on Toyo production, so there is some light at the end of the tunnel here.

Press release is here:

Toyo did the right thing - mitigating the crisis and still supporting its dedicated spec series. This should help keep its competitors at bay who I saw as an opportunity by trying to take advantage of its situation.
