Hey guys, I have been lurking these forums for awhile and all the info has been great. I have been really interested in building a spec 944 instead of dumping more money into my s2000, but it seems like a very unpopular class here in florida. I was wondering what you all thought about going ahead with my plans for a 944 build even though there isn't a lot of others in the area? Seems like I could still stay competitive in PTD but I am really hoping to see this class grow here florida. I guess I just trying to talk myself out of spec 944 but I can't really think of any options I like better. Any help or opinions would be great!
