

Car covers to store car outside

Posted by S4lex - 22 Apr 2009 07:31

Looking for a good car cover for storing my 944 Spec outside. Nothing fancy, but one that will withstand the elements being in Colorado and act a race car cloaking device (pending paint and sticker work). The latter concern given some overly sensitive neighbors, including a few who work for the city.

Any recommendations? It can also get very windy since we are due east of the Rocky Mtns, so one that I can tie/lock down would be great.
