

## Help!

Posted by Leonel\_944 - 28 Nov 2009 02:43

---

I am looking for used camber plates, 350 or 400lb springs, and a coilover conversion kit for my Spec-944 build. I cannot afford them new.

My car was given to me about a year ago along with most of the parts on it now. The front of the car is completely stock except the welt sway bar and the inserts are shot. The rear has 30mm torsion bars, koni adjustable shock, and welt sway bar. So the front is super soft and the rear is stiff...

I am also looking for used Racing seats, 5 point harness, and a 944spec legal Roll cage. If you have any of these please contact me

This e-mail address is being protected from spambots. You need JavaScript enabled to view it

or 832-441-8622

I hope to one day soon join you all

Keep an eye out on Rennlist, and Pelican Parts.com

These things come up there from time to time - good luck!

It may be cheaper to sell your car, and buy a built racecar, though - there are some good deals out there, and it always costs more than you think to build!

I should have a set of 350lb springs for sale cheap if I can find someone to install my 400lb ones for me.

Leon,

What part of the country are you in?

What year is your 944?

Did you mean NASA 944 Spec, or SCCA Spec 944?

I might have some of the parts you need.
