It worked out great and it was a good meeting and gathering place. Did we get a community garage? Any one have a count on the number of RVs? Re: 944 Spec compound Posted by Sterling Doc - 26 Aug 2013 09:19 You can do some tuning on a Mustang dyno, but it's not going to give you numbers that mean anything relative to the power cap... Re: 944 Spec compound Posted by hansoncuts - 27 Aug 2013 13:07 What about Magnus racing I haven't been able to find a number yet but suposably they have a Dyno and rent it out. He says it's a Mustang roller dyno and they might rent it out if there isn't anyone working in that shop but its normally kept for in house only.

He should be coming to Miller with me so we might be able to call in a favour or two (but no guarentees)
