

Best Dash Logger?

Posted by Perryn59 - 11 Dec 2016 07:05

Hi folks,

New the group with a recently purchased 944 Spec and want to add a dash logger. I'm from karting so I'm used to the AIM MyChron series; they are recommending the EVO4 setup. Any feedback or suggestions? Thanks!

I use the Mychron MXL dash with Evo 4 logger. These have been recently discontinued but Pegasus Racing still has some in stock. I bought one 2 weeks ago.

The new system costs more and is not yet available.
