

Koni Shocks out of stock?

Posted by Omn3d0n - 21 Apr 2009 05:54

Hi Guys,

Is anyone else having problems getting shocks. Mine

have been on back order from paragon for two months.

Does anyone else have a supplier who has them in stock?

Help, the season is coming and my car is still in parts!

Thanks

Sid

Try peak eurosport (to the left of this page), or there is a good E-bay vendor called SohiPerformance that I've bought Konis from in the past.
