Racing Seat Preference Posted by B1BFlyer - 29 Nov 2010 08:05
I searched for this topic but couldn't find any threads related to it.
I'm going to need a seat for my 924, and I'm not sure if I want full containment or standard seat with a net. What do most of you all run? The benefits of egress room vs. better head containment are the discussions I've seen brought up.
Second, I've only sat in a few seats, so recommendations or warnings against type or manufacturer are definitely welcome.
I'm just under 6ft, 175lbs.
Thanks,
Ryan

Well I just got an email from Mitch, (the previous owner) and he said the seat mounts are attached to the floorpan, so I'll have to get those out and get them attached to the tunnel.
If anyone has a link to a pic of the mounts attached to the tunnel, that will help me out a lot.
Cheers,
Ryan
