

Racing Seat Preference

Posted by B1BFlyer - 29 Nov 2010 08:05

I searched for this topic but couldn't find any threads related to it.

I'm going to need a seat for my 924, and I'm not sure if I want full containment or standard seat with a net. What do most of you all run? The benefits of egress room vs. better head containment are the discussions I've seen brought up.

Second, I've only sat in a few seats, so recommendations or warnings against type or manufacturer are definitely welcome.

I'm just under 6ft, 175lbs.

Thanks,

Ryan

Here is the link to the Omp USA web site. It says they are fia. But if NASA doesn't allow it then this is a moot point.

www.ompamerica.com/seats/744.html

So what about this one????
