2019 rules?

_____

I noticed there has been no discussion on any new or revised rules for next year.

Is this something we will be doing this time around?

Or has this been done somewhere else?

You have been know to say "no rules changes" maybe by not having a forum topic is a way to keep the rules the same. It is my understanding 944 Spec is the only class that has yet to submit 2019 rules.
