

Build Party In Cumming, GA

Posted by Brian Evans - 03 Jan 2012 18:21

As it sits it is stock 1983 944 with a blown head gasket, manual steering and untold treasures beneath the seats- guns, cash, Arby's coupons- it's anyone's guess...

Soon it will be the Southeast's newest 944-Spec car.

On Saturday, January 14th come join us in Cumming, GA for the first part of the build process- removing the interior, dropping the engine, replacing the head and rod bearings, etc. We'll be doing it in true NASA Southeast style- with BBQ and plenty of beer!

Everyone is welcome, we will be starting at 9:00 AM and finishing up around 4:00 PM- actual work is optional, bench racing is preferred. Show up and leave whenever you want-

PM me for the address.

Good luck with the build party, guys. That is great that NASA is supporting the class with the \$100 certificates. I hope it brings out some new folks to check out the action and get their hands dirty. I wish I was closer than 3,000 miles. It sounds like it will be fun.
